

Audit-ready compliance and leaner operations, certified by accredited expertise.

ISO, NABL, TISAX and Automotive SPICE auditing combined with Lean Six Sigma to remove cost and overhead. Delivered by a multi-standard Lead Auditor and certified ISO/IEC 17025:2017 Internal Auditor with 25+ years of European industrial leadership across Siemens, Volkswagen, Deutsche Bahn and Ericsson.

ADVISORY SERVICES

ISO Management System Auditing

Gap assessment, internal audit and certification readiness for ISO 9001, 14001, 45001, 27001 and 50001.

TISAX Assessment Readiness

Automotive information-security (VDA ISA) preparation and remediation support.

Lean Six Sigma Deployment

Black Belt-led waste, defect and cost reduction across operational processes.

NABL / ISO 17025 Accreditation

Structured, audit-ready preparation for testing and calibration laboratory accreditation.

Automotive SPICE (ASPICE)

Process assessment and improvement for automotive software and systems development.

Integrated Management Systems

Harmonising multiple standards into one efficient, audit-ready framework.

WHO WE WORK WITH

- ◆ Manufacturers and automotive suppliers
- ◆ Testing and calibration laboratories
- ◆ Regulated and export-oriented organisations
- ◆ Operations leaders targeting cost reduction

ENGAGEMENT MODELS

Compliance Diagnostic

Gap assessment against target standards with a prioritised roadmap.

Certification Readiness Programme

End-to-end preparation through to certification.

Improvement Project (LSS)

Defined-scope Lean Six Sigma cost and efficiency project.

Retained Audit Advisory

Ongoing internal audit and compliance oversight.

CREDENTIALS
